

Certified Data (CDPO)

Protection Officer

Obtain all the competences and knowledge necessary to lead all the processes for implementing and complying with the requirements of the General Data Protection Regulation (GDPR) in an organization

Why should you attend?

The Certified Data Protection Officer training course enables you to develop the necessary knowledge, skills and competence to effectively implement and manage a compliance framework with regard to the protection of personal data.

After mastering all the necessary concepts of General Data Protection Regulation (GDPR), you can sit for the exam and apply for a "PECB Certified Data Protection Officer" credential. By holding a PECB Certified Data Protection Officer Certificate, you will demonstrate that you thoroughly understand the gap between the General Data Protection Regulation and the current organizational processes including: privacy policies, procedures, working instructions, consent forms, data protection impact assessments, in order to associate organizations in the adoption process to the new regulation.

Who should attend?

- Project managers or consultants wanting to prepare and to support an organization in the implementation of the new procedures and adoption of the new requisites presented in the GDPR, which will come into force and effect by the 25th May 2018
- DPO and Senior Managers responsible for the personal data protection of an enterprise and the management of its risks
- Members of an information security, incident management and business continuity team
- Expert advisors in security of personal data
- Technical experts and compliance experts wanting to prepare for a Data Protection Officer job
