About Course

The **ISO 27701:2025 Lead Auditor Hands-on Training & Certification** Course from InfosecTrain provides an in-depth understanding of the **Privacy Information Management System (PIMS)** framework and the competencies required to plan, conduct, report, and follow up on ISO 27701 audits. The course begins by establishing a strong foundation in PIMS concepts, privacy principles, and the structure of ISO/IEC 27701, including requirements for both data controllers and processors.

Participants will gain detailed knowledge of auditing concepts, audit lifecycle phases, Auditor and Lead Auditor roles, and certification processes, followed by hands-on exposure to audit planning, execution, reporting, and corrective action follow-up. The training emphasizes evidence-based auditing, effective interviewing techniques, nonconformity handling, and root cause analysis, ensuring learners are audit-ready in real enterprise environments.

Course Objectives

- ✓ Lead end-to-end PIMS audits in real enterprise environments
- ✓ Interpret and apply ISO/IEC 27701:2025 for both data controllers and processors
- ✓ Design and execute privacy governance frameworks aligned with GDPR and India's Digital Personal Data Protection Act (DPDPA) 2023
- ✓ Conduct evidence-based audits using process-driven methodology
- ✓ Identify, classify and record nonconformities accurately and prepare professional-grade audit reports
- ✓ Apply root cause analysis techniques to drive sustainable privacy compliance improvements
- ✓ Lead audit teams confidently by understanding the distinct responsibilities of Auditors, Lead Auditors, technical experts and observers
- ✓ Map PIMS controls to GDPR Articles and DPDPA obligations
- ✓ Evaluate an organisation's privacy risk posture and recommend targeted improvements aligned with international best practices
- ✓ Achieve ISO/IEC 27701 Lead Auditor certification through TÜV SÜD

Target Audience

- ✔ Privacy Officers / Data Protection Officers(DPO)
- ✔ Information Security Practitioners and professionals
- ✔ Risk and Governance Managers
- ✔ Information Security Management System Consultants, Security Officers and Advisors
- ✔ Professionals seeking to become certified ISO/IEC 27701 Lead Auditors

Pre-Requisites

- ✔ Prior knowledge about ISO/IEC 27001 standard is preferred and good to have as integration with ISO/IEC 27001 remains valuable for holistic governance of PIMS.
- ✔ Privacy Basics (GDPR/Data Protection), Fundamental Security Knowledge would be an added advantage; however, it is not mandatory.

Exam Information

We provide the exam with **TÜV SÜD**. Connect with our training advisors for detailed exam structure and certification process.

Course Content

PIMS Concepts and ISO/IEC 27701 Standard

- ✓ PIMS concepts and key definitions
- ✓ ISO/IEC 27701 high level structure
- ✓ The purpose, importance and benefits of PIMS
